

# Put unclaimed balances to good use...

Unclaimed client balances, small or large, make a big difference to the solicitors we help. Whether your firm only has a few pennies left over, or a larger sum, we can use this to fund a healthier, happier and more supported profession.

When it comes to RCBs, it's as easy as 1, 2, 3...

**2**

We will contact you to organise everything

**3**

We hold your RCBs risk free\*

*\*We know how much of a challenge dealing with unclaimed balances can be for firms, balancing the requirements of accounting rules and the prospect that your client may reappear in the future. This is why we give firms a guarantee that the sums they pass on to The Solicitors' Charity will always be refunded if they are reclaimed.*

## RCBs fund support for solicitors in crisis like...

### Mental & Physical Wellbeing

Solicitors are not made of steel and challenges to mental health and emotional wellbeing affect one in four people. We fund support to make sure solicitors can access the help they need, when they need it most.

### Financial Wellbeing

Challenges such as job loss, bereavement, emotional difficulties, relationship breakdowns, illness, injuries and more can cause difficulty. If you are struggling, we understand and offer confidential and non-judgemental support.

### Professional Wellbeing

We understand that a life in law can be challenging no matter if you are employed or self-employed. At the point where things aren't working, we can help. We also support solicitors trying to get back into work.

### Money management

The stress and pressure of owing money can feel overwhelming, so we offer confidential advice on money management, welfare benefits and debt.
